

Taiwan Autism Arts Alliance (TAAA)

Sustainable Development Goals (SDGs) Policy

Taiwan Autism Arts Alliance (TAAA) aligns its mission and program development with the United Nations 2030 Sustainable Development Goals (SDGs). Our work integrates inclusive art education, research, and creative technology access to advance sustainable and equitable outcomes for neurodivergent communities.

TAAA prioritizes the following SDGs:

SDG 3 – Good Health and Well-Being

TAAA supports emotional well-being through structured creative expression, recognizing the role of inclusive arts education in strengthening confidence, resilience, and mental health among autistic youth.

SDG 4 – Quality Education

We develop accessible, research-informed art instruction models that promote equitable learning environments for neurodivergent students.

SDG 8 – Decent Work and Economic Growth

Through skill-building in visual arts and digital creative tools, TAAA fosters pathways toward future employment opportunities and creative industries participation.

SDG 10 – Reduced Inequalities

TAAA works to reduce systemic barriers faced by autistic individuals by increasing access to education, public visibility, and inclusive cultural participation.

SDG 11 – Sustainable Cities and Communities

By partnering with cultural institutions, educational bodies, and community organizations, TAAA promotes inclusive public spaces where neurodivergent voices are represented and valued.

SDG 17 – Partnerships for the Goals

TAAA actively collaborates with universities, community organizations, international foundations, and corporate partners to expand impact and strengthen cross-sector support for autism inclusion.

Implementation Commitment

TAAA integrates SDG principles into program planning, partnerships, and evaluation processes. We are committed to measurable impact, responsible resource stewardship, and transparent reporting aligned with sustainable development standards.
